

**Portnox**

# Cloud-Native TACACS+-as-a-Service

**Fully cloud-native**

**Limited footprint**

**Easy to deploy & scale**

**Network agnostic**

**Zero-touch maintenance**

**SaaS subscription**

## System Architecture

- Cloud-native
- Auto-scaling
- No upgrades
- No patches

## Authorization Policies

- Privilege levels
- Session timeout value
- Autocommands
- Allowed services
- Custom attributes

## Compatibility

- Aruba
- Cisco
- Extreme
- Juniper
- ...and many more

## Authentication Methods

- Azure AD
- Google Workspace
- Microsoft AD
- OKTA
- OpenLDAP

## Accounting Records

- User identities
- Start / stop times
- Executed commands
- Packet transfers
- US-ASCII strings

## Integrations

- SIEM
- RESTful API

## Integrations & Compatibility
